

W&PR Director report for Sept 23, 2011 teleconference
Dave James, PE

1) National society budget NSPE Finance Director's report for the fiscal year through August . I have uploaded this report to the Yahoo Group's documents page

- a) In the black on a consolidated basis
- b) Currently an interim operating deficit of \$48,100. Last year at this time the deficient was \$122,000, do we're better off this year.

2) LEADERS NSPE President Stone's 2020 video is available on YouTube. Please see http://www.youtube.com/watch?v=Dy4n_0PGwto

3) Electronic PE magazine There will be some national society follow up on transmitting PE magazine electronically to some subscribers, not as a PDF but as a HTML link through a service such as Texterity. A demo version was prepared and sent out on July 20th. Does anyone want me to post the links to this demo version?

If you have questions, please contact NSPE's David Siegel at dsiegel@nspe.org

4) Officer Talking points. NSPE's Nancy Oswald sent out on Sept 16, 2011, updated NSPE Officer talking points. I have posted them to the Yahoo groups site

5) Nominations for NSPE Fellows are due to the national society on February 1, 2012

6) Deadline for submission of Agenda Items, Resolutions, Recommendations for the October 15, 2011 NSPE Board of Directors Fall teleconference was Sept 15, 2011
Is there anything that the region would like me to bring up at the October 15, teleconference?

7) Standard of Care Task Force has not convened since the national conference in Las Vegas. Chair Brands' intention is that workshops like those held in Idaho and Nevada, be developed and implemented in other states.

8) State Participation in W&PR

a) National and I are trying to get the Utah Society to rejoin the national conversation. Our own W&PR webmaster, Jim Szatkowski who is a member of both the Idaho and Utah societies, has confirmed that the Utah Society's President remains Jim Belshe, PE and we were able to get his contact information to National

b) What is the W&PR's wish in terms of having Wyoming to join our region? What would be the next steps? I think it would be best if Wyoming's board asked to join us, so that we're not being seen as trying to grow our region at the expense of another region.
